

Georgia Electronic Conviction Processing System (GECPS)

COURT BULLETIN

This bulletin will be updated by the Georgia Department of Driver Services (DDS). Our goal is to strengthen the communication between our business partners by disseminating legislative updates and other valuable information in a timely manner.

LEGISLATIVE UPDATES

[2014 Legislation](#)

[2011 Legislation](#)

GECPS

- **What is GECPS?**

GECPS is a standardized and secure method to report GA Reportable Violation Codes to DDS according to HB1253.

- **GECPS Online Account**

The online account allows GECPS users to update contact information, review outstanding errors and access documents uploaded by DDS.

ERROR HIGHLIGHTS

2851: FTA has been released already; Duplicate FTA release - no action is required by court.

The following example may cause this error code:

Example 1: Court submits a FTA on 2/3/2016, the customer comes in and pays the FTA on 2/4/2016 and the court provides the customer with a DS-912 to take to DDS. The customer goes the same day to DDS to get license cleared of the FTA Suspension. The court then sends the batch in by 6pm to DDS with the electronic release. GECPS will send an error code back saying the FTA have already been released. No further action required by the court.
